

# ErgoMat

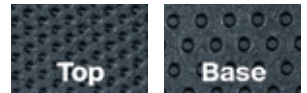

17mm thick solid rubber interlocking mats for herringbone pit flooring. Diamond profile, studded base.

ErgoMat is the top of the range when it comes to Herringbone pit matting, providing multiple health and comfort benefits for the milker. A smart alternative to hard concrete flooring, ErgoMat's 17mm thick profile takes the pressure off your feet, legs, and back while its diamond stud surface works as anti-slip matting to prevent falls and injuries.

## Applications

Pit Mats
