

YoungStar (YS20)

Heavy-duty 20mm thick mat with hoof-stopping lugged profile.

Designed with the needs of sale yards and abattoirs, in mind. YoungStar is a built-tough rubber matting system that's simple to install, easy to clean, and a great performer under pressure. Its well-placed lugs are designed to stop cattle slipping and reduce the incidence of falls and injuries while handling live stock.

Applications

Sale Yards, Abattoirs, Loading Zones, Drafting Areas, Processing Areas, Crushes

Properties

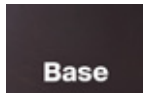

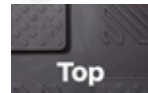

Made of high-quality rubber using a unique vulcanisation process.

Slip Resistant

Recycled Rubber

Specifications

Features
