

Hooves choose it.

CrushMat

CrushMat is designed to fit your crush.

With its angled cleat design the NumatAGRI CrushMat delivers maximum grip and stability for your livestock. The 15mm high cleats keep hooves from slipping while the optimally placed spacings between the cleats allow for the easy run-off of water which further reduces the risk of slips. Made from ultra-durable vulcanized rubber, CrushMat is fully water resistant and built to last.

Applications

Cattle crush, loading ramp.

Properties

Made from recycled rubber using a unique vulcanisation process. Fully sealed and won't hold moisture or bacteria.

Slip Resistant

Recycled Rubber

Specifications

Features

- Total thickness, 30mm with 15mm high angled lugs
- High MPA for durability

Strengths

- Reduces slips and falls
- Uniform shape - simple to install and easy to clean
- Designed to last
- Reduces noise

Dimensions

Length: 2000mm | Width: 720mm | Thickness: 30mm | Weight: 30kg
