

Flexi Swing Scratch Brush

Animal-controlled grooming. Durable, replaceable polypropylene bristles. Redirects destructive scratching. Crafted in Germany

Introducing the **Flexi Swing**, a revolutionary grooming solution that allows animals to control their cleaning and massage intensity. This **wireless vertical oscillating brush** operates without the need for a power connection, making it ideal for both indoor and outdoor use. The **replaceable polypropylene bristles** and **robust spring construction** ensure long-lasting durability and low-maintenance performance.

The **Flexi Swing** offers an affordable and holistic grooming experience, allowing animals to set their own grooming preferences. With easy installation, this brush provides a seamless addition to any farm or animal care facility.
